

To whom it may concern,

K-Love is the station that is most often listened to by the youth within our church. Despite the local station that is already in Central Oregon, this station is reaching the lost and saving souls in our community. We will even travel from city to city to find this station, because we know that it is safe for our kids and we know what to expect. To replace this with another LPFM broadcaster would be disaster for thousands of families and souls being saved across this country. The air waves will not have anything but more of the same garbage that it has already. Thank you for your time.
